Proposal: Planning application - food to go pod and associated forecourt works (following demolition of car wash, jet wash machine and plant room)

Case Officer: Savannah Cobbold

## Customer Details

Name: Mrs Tina Wilson

Address: 3 Coupals Close, Haverhill, Suffolk CB9 7UT

## Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

- Noise
- Opening hours
- Parking issues
- Residential Amenity
- Traffic or Highways

Comment: Planning was put in for a permanent structure for a greggs/ costa by this garage and this was rejected for a number of reasons including safety, noise, parking etc.

a pop up greggs is no different, the current level of cars queuing for the garage is high. A lot of people park on Coupals close making it very dangerous trying to go round cars to get safely to the junction. When the garage has a fuel delivery all sections of the car park are restricted or closed for approx 30 mins . People using the facilities of the pop up will have no option but to wait until exit is allowed. Current garage only has 1 access and 1 egress point which again causes traffic to queue on main road, obstructing all access to Coupals close. Noise level at night will be bad as the area will be used as a congregation point for young people in their cars. Rubbish is already an issue at the current garage as there are not enough rubbish bins. The current change of use for electrical points will already mean more traffic entering and exiting the garage, if all charging pints are in use people will have to find alternative parking in order to use the pop up Greggs. No pending development application has been displayed to allow local people to view this and raise concerns.
