-----Original Message----- From: Brown, Tony Sent: 06 June 2023 19:44 To: customer.services Subject: RE: Planning Consultation-DC/23/0735/FUL I have major concerns and object to this application. This will potentially create additional traffic onto the site as I have previously stated on the earlier application at this site. The entrance and exit to the site will be blocked by any fuel tanker discharging fuel to the fuel tanks located in the entrance exit area. I have seen articulated tankers parked for up to 30 minutes blocking this area while unloading fuel. This needs to be resolved otherwise potential users of the proposed facilities could be trapped with their vehicles on site while this operation is carried out, kind regards Tony Brown
