Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

- Other

Comment: I have no objection to the work planned for these trees, I would however like to request permission be granted to my neighbour at 2 broad street Haverhill Suffolk (previously denied on several occasions) to bring the very overgrown copper beech tree in his front garden which overreaches my rear garden and building causing significant damage to my property with blocking guttering and drains and bird droppings onto my garden paths. During periods of strong winds branches break causing a need for constant clearing. Up o now my neighbour has been refused permission to reduce the height and width of this tree, even though an aborist has advised this tree is unsuited to a domestic premises and should only be in parkland environments.
