Hi Alexa,

I would also like these pictures added to my objection as highways say no large lorries come through the village. these pictures are from my front door and the one in the dark was taken last night and the other a couple of weeks ago. After speaking to some other locals they say this is the norm as they come through during the day.

if this development get the go ahead and the way the roundabouts are situated this will make Kedington a better and easier route to Colchester.

yours concerned

Mr Rowsell

This amount of houses is not required for this area and will have a huge impact on infrastructure, Police force, doctors and schools. Haverhill was a small beautiful and desirable market town but now with all the other housing developments which has been forced on this area Haverhill is now over populated with crime on the increase, drug issues on the increase and roads in total disrepair with the Highways saying there is no money?
