Subject: Proposed Development-Great WilseyPark

For The Att'n Mr. C. Rand

Dear Sir, Ref.DC/15/2151/OUT

I would refer to my letter of June 20th 2015. I have no doubt that the excellent officers in the West Suffolk Planning Office will have already given all the necessary consideration to all matters raised in my previous correspondence.

However there is one subject that I feel requires restating, i.e. "the question of traffic". It would appear that the developers are insistant on having a second round-about on the A143 to give access to the new estate. As a local resident I find it completely incomprehensible that use cannot be made of the round-about already approved between 'Wayside' and 'The Fox'. The pollution arising, (noise, exhaust gases,etc.) from the proposed scheme would be totally unacceptable and I feel I must protest in the most strongest of terms.

I sincerely hope this that matter will have all the due considerations necessary for such an important decision and leave it to your capable good offices to arrive at the correct solutions.

Yours sincerely W.E.Fowler, Medgower, Haverhill Road, Little Wratting, CB9 7UD.
