[THIS IS AN EXTERNAL EMAIL]

Dear Sir/Madam

Thank you for your email. We have reviewed the information provided and we have no comments to make on this application.

The site is located above a Principal Aquifer and within Source Protection Zone 3 (SPZ). The developer should address risks to controlled waters from contamination at the site, following the requirements of the National Planning Policy Framework and the Environment Agency Guiding Principles for Land Contamination, which can be found here: <https://www.gov.uk/government/publications/managing-and-reducing-land-contamination>

If the development proposes to use deep infiltration systems including boreholes and other structures that by-pass the soil layer we would wish to be re-consulted.

If you have any further queries please do not hesitate to contact us.

Kind regards
Elizabeth
