2<sup>nd</sup> November 2020

Dear Penny,

**RE: DC/20/0615/RM - Submission of details under SE/09/1283 - the means of access, appearance, landscaping, layout and scale for the construction of 168no. dwellings with associated private amenity space, means of enclosure, car parking, vehicle and access arrangements together with proposed areas of landscaping and areas of open space for a phase of residential development known as Phase 2. Land North Of Anne Sucklings Lane, Little Wratting**

Thank you for re-consulting us on this application, we previously commented in May and September 2020 and wish to update those comments:

We previously commented on the provision of buffering planting along the northern section of the development where it abuts the relief road. Whilst we acknowledge that some planting has been added to landscape proposals, there is not sufficient to provide a wildlife corridor that links the green spaces within all phases of the development, as described within application SE/09/1283. Therefore, we are of the strong opinion that further landscape and planting details are required to demonstrate how a cohesive landscape and wildlife habitat network will be achieved.

Please do not hesitate to contact us should you require anything further.

Yours sincerely

Jacob Devenney  
Planning and Biodiversity Adviser
