

20 Hales Barn Road
Haverhill
Suffolk
CB9 9SE

Ref: SE/09/1283

8/10/10

Dear Sirs,

With reference to the above planning application, I wish to show my concern for the use of Hales Barn Road to be used to enter the new development. As I pointed out on the previous application, the road is not suitable to the increase in road traffic which would be inevitable. As of now, the amount of vehicles parking along the road make it difficult to use this road safely. Therefore, ANY increase in traffic would cause even more problems. Lorries making drops in this area are continually complaining about this.

For anyone living on the part of the estate near Hales Barn Road, would not use the relief road to gain access, but would go for the shortest route, which means it would become a "rat-run". The road is congested much more after 4pm daily until the workers return

making the problem far greater.
Week-ends would be an excellent
time to view this situation, with
regards to traffic management.

If there was a fire, I dread to think
how the fire engine would get down
the road!

I hope your careful consideration will
be given to this matter.
I remain,

Yours faithfully.

MRS. M. D. Lambert.
