Subject: Fw: Planning Application SE/o9/1283 Objection

Dear Ms Dell,

This Application SE/09/1283 fails to take any account of our representations regarding better quality housing & the needs of Haverhill to upgrade its total housing stock. It flies in the face of all the dreams and hopes of the people of Haverhill, the local employers, and all the people of the surrounding Parishes.

The heights of the building have been increased to a point where they will visually impose on the Parish of Great Wratting, reducing Great Wratting's rural tranquillity.

The positioning of this extra low grade, high rise housing ruins any chance of Haverhill being able to build some housing to accommodate larger families, or persons who might bring employment to the town.

This has been done in the face of our 20 years of our active counsel & advice from elected Councillors in Haverhill and its surrounding Parishes, and has made a mockery of any claims regarding "Consultation" by your department.

We object strongly to this application as it stands, but would consider any application that corrected these faults.

Yours Faithfully

Philip J Stainer.
Vice Chairman: Great Wratting Parish Council
