

VAM-FC/J

Weather Proof Enclosures for VAM Total Heat Exchangers

VAM units are a convenient way to deliver local fresh requirements into a space with the minimum of fuss. Our weatherproofing options allow external installation of VAM units to offer even greater flexibility to keep indoor air quality at a high level.

There are some occasions when VAM units will not fit in a ceiling void. Our weatherproofing options allow VAM units to be installed on a roof and then ducted into the space requiring fresh air allowing more properties to benefit from improved indoor air quality. These enclosures are fitted to the VAM units by our workshop so they arrive on site ready for you to connect to the ductwork.

The enclosures are rated to IP44 to prevent ingress of the British weather from interfering with the operation of the unit.

Please note that pre heaters cannot be used with the enclosures.

Lead Time

6 weeks

Applicable Units

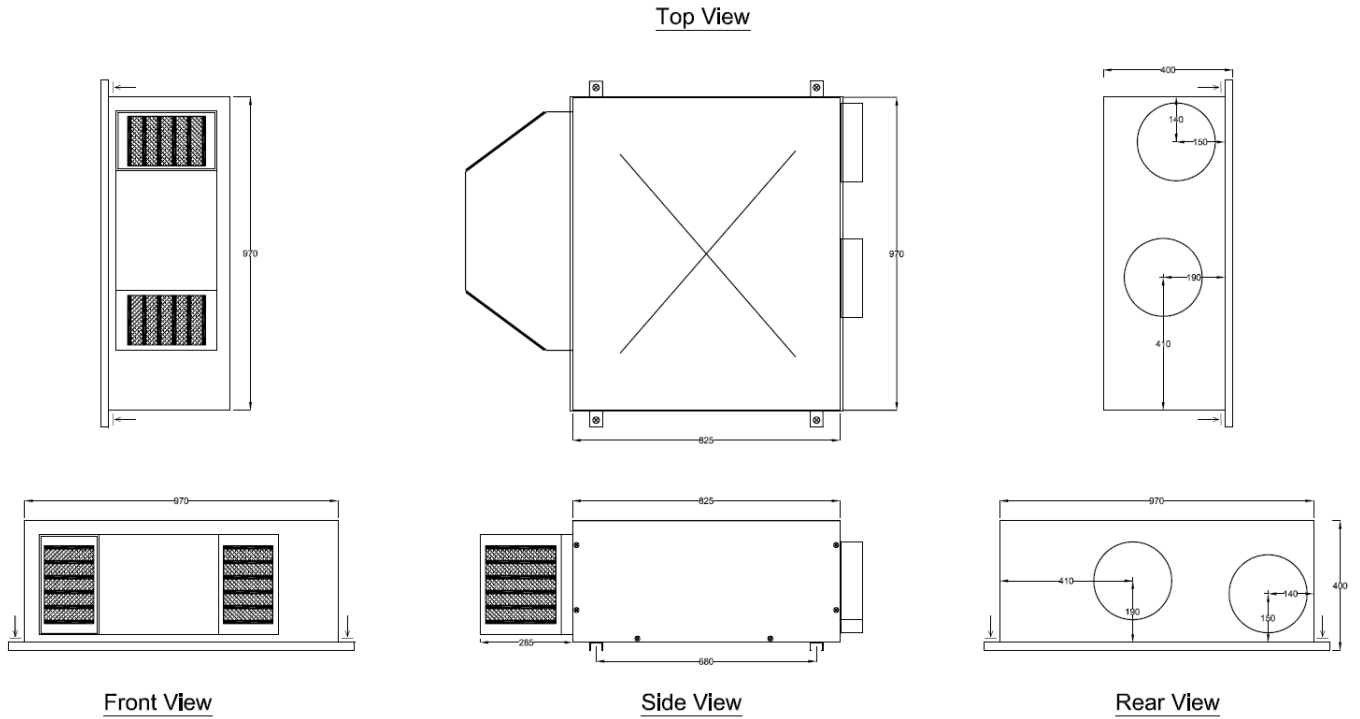

All VAM units (J and FC series ok, but not the VKM range)

VAM model	Enclosure part number
VAM150FC	UK.VAM150/WPENC
VAM250FC	UK.VAM250/WPENC
VAM350J	UK.VAM350J/WPENC
VAM500J	UK.VAM500J/WPENC
VAM650J	UK.VAM650J/WPENC
VAM800J	UK.VAM800J/WPENC
VAM1000J	UK.VAM1000J/WPENC
VAM1500J	UK.VAM1500J/WPENC
VAM2000J	UK.VAM2000J/WPENC
