Notes:

KEY

■ Green & Blue Infrastructure - 41%
Emerging Policy Site
All major residential developments of 50 or more units or more located on greenfield sites should provide a minimum of 41% green infrastructure within the site. Green infrastructure can include public open space, sustainable drainage systems, including water, trees and rain gardens, permeable, hard paving, swales, ponds, wetlands, and other natural features, including, new and restored habitats including meadows, trees and hedgerows, green and blue corridors, and recreational green routes.
