Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: To whom it may concern,

My wife and I were married at Sturmer Hall in 2017 and the venue and setting will forever hold a very special place in our hearts. I have personally known Daniel Hannan for many years, working closely with him on many projects for Sturmer Hall.

Firstly, to say I have always held Daniel in the highest regard and his legacy planning in terms of the proposed SEN School on the site are testament to a man who has always strived for excellence in everything he has worked for. I have viewed the plans and drawings for the School and can honestly say they look astounding - which comes as no surprise given the above comments.

The School would be a standout, flagship school for SEN(D) provision in the locality and beyond. The setting, architecture and facilities would be an enormous asset to the local community and benefit the children and families attending, immeasurably.

I believe the use of the spa and wellness facilities outside of school hours and term times would also benefit the local community in terms of the setting for such leisure and recreational pursuits and in terms of providing local employment for those outside of the education sector also.

I trust the above comments help in the decision-making process.

Sincerely,

Jamie & Jennifer Hall
