Tegan Harnwell Operations Support Administrator Sent: 05 June 2026 10:00 Subject: RE: Planning invalidity notification - DC/26/0823/TPO, Planning Portal No: PP-14967821, 37 Quendon Place Good morning, After speaking with our Arboricultural officer, we will require more detail on the proposed work. He has suggested the works would best represent a crown thin, in which we would need to know a percentage of tree that will be removed. The deadwood will not be included in the proposal because this does not require permission. Kind regards Alice Whitbread Sent: 04 June 2026 15:46 Subject: RE: Planning invalidity notification - DC/26/0823/TPO, Planning Portal No: PP-14967821, 37 Quendon Place Hi Alice, The spec says what works are required, to remove deadwood, remove crossing, supressed and rubbing branches. It doesn't involve a reduction. As mentioned in my invalid letter if the works are only to remove deadwood, then this does not require permission. However, if the works reflect any crown reduction then this would need to be described using metres. Would you be able to clarify the proposed works.
