Subject: Savannah Cobbolf, Planning application DC/25/0078/FUL

Good afternoon savannah,

we are just emailing regarding the above application for 54 which got withdrawn in September. And sadly has come back again with slight amendments to the planning I.e the two top windows have been removed from it which is lovely but still doesn't change or remove any of the previous problems with the planning from everyone else involved with the objections.

We at 56 crowland road have sent out objections already regarding fencing / boundary proximity with the build and scaffolding issues of how they would be located on our driveway which they have no chance! which I didn't realise last time round and also he's going to be taking down part of my fence which we had to replace a few year back at our own cost. There are dangerous problems of which there is the family and their children at 54 who will be living in a building site alarm bells ring! In which they only found out yesterday about the new planning and the access for the neighbours he's removing and giving a slight walk way which hinders them and I presume everyone else will do the same, as from the over building here prospectives and traffic problems including the driveway which is just dangerous where the road narrows and they have no visibility from traffic coming up or down that road.

A thorough site visit needs to be taken out and to fully understand the magnitude of the dangers let alone the problems of this build.

Kind regards,

Mr Michael Malley

56 crowland road  
Haverhill
