Good Evening Andrew

You may already be aware that Cambs CC have just consented an AD pant at Streetly End ,some four miles or so away from Withersfield.

Interestingly there were few local objections and I think it was not seen to be a waste or commercial operation by the Case Officer.

Notwithstanding it is not a minor undertaking, asking for over 60,000 tonnes of chicken muck and farm yard slurry per annum.

This waste is a finite reserve locally (ironically this area is predominately arable) one has to ask where Acorn/SLR would now source their feed stock to support their proposal.

I guess as the gas produced would go to Milton Keynes and that ticks all the boxes , road miles are not seen as a green issue.

KR David
