Petition organised by Muck Off Acorn Campaign:  
 "Oppose Acorn Bioenergy building an anaerobic digestion plant in Withersfield, Haverhill"

Name	City	Postal Code	Date	Comment
Indy Wijenayaka	Suffolk	Cb97st	15/02/2023	"This will completely disrupt the whole area and everyone who lives in the area. This was meant to be a mix habitation with commercial enterprises, housing and a tranquil village all in close proximity, not one of the Britain's largest industrialised digestate / methane factories. This is a big green wash and it won't help with tackling the global climate change and nature crisis. This must be stopped !"
Sheila Horton	Withersfield	CB9	15/02/2023	"I strongly oppose the planned location of this site"
Mandy Bowman	Haverhill	CB9 7WQ	16/02/2023	"Because this will not be good for Haverhill or surrounding areas. Also, the A1307 is already classed as a high casualty route and therefore will only add to the hazard of driving on this road. Craziness!!!"
Chris Bray	Chelsea	SW10	16/02/2023	"Totally inappropriate place to site this plant."
Quillon Fox	Haverhill	CB9 7WN	16/02/2023	"This plant is in totally the wrong place. Put it somewhere more suitable and safer."
Tim Hawkins	Leighton Buzzard	LU7	16/02/2023	"Not here in this location not ever, too near housing, businesses and children's schools, all will suffer. If this is to benefit Milton Keynes, should be built there."
Stanley Paul Sadler	London	SE11	16/02/2023	"I have contributed to and watched this part of town develop as our welcoming gateway complete with sculpture roundabout, showpiece commercial accomodation, and nearby new residential area.The siting of an adjacent 24 hour biogas plant here would be totally inappropriate to our aims and destructive to the effort that has been put in."
Michael Horton	Withersfield	CB9 7SG	16/02/2023	"I think the impact of the proposed anaerobic digester would be environmentally catastrophic"
Denis Elavia	Cambridge	CB9	16/02/2023	"Inappropriate site for this plant, more suitable sites should be sought which have less impact on the community"
steve haynes	London	E179qj	16/02/2023	"It stinks"
Tim Syer	Haverhill	Cb9 0ag	16/02/2023	"This would not improve the area and destroy the community. The potential for contradiction of HSE & E legislation is higgh"
CARL Ecobichon	LINCOLN	LN43BQ	16/02/2023	"industrial gas installation has no place in the countryside."
Louise Dyson	Haverhill	CB9	16/02/2023	"I don't think Haverhill needs it"
victoria ives	Haverhill	Cb9 9lw	16/02/2023	"Traffic, smells, there are much better locations for it."
Wendy Yagir	Haverhill	CB9	16/02/2023	"The site location is completely inappropriate"
Vernon Taylor	Grantham	NG31 6DB	17/02/2023	"Caythorpe agricultural college operated a sludge digester as an experiment with an EU grant. All went well until one day a load of chicken manure was tipped in - the chickens had been administered antibiotics and it stopped the process dead and it all had to be cleaned out and dumped.The chances of it happening again are quite high..."
Rosemary Fletcher	Haverhill	CB9 8NR	17/02/2023	"This is the wrong place for such a development as it will have a huge detrimental effect on our town."
Jane Jones	Haverhill	CB9 7RA	17/02/2023	"I live near it and don't want the vile smells and pollution in my home"
Steve Whyard	Withersfield	CB9 7SP	17/02/2023	"This Biogas plant may have great green credentials but the proposed location is wrong! The adverse impacts on the lives and wellbeing of local residents, some of whom live less than 500m from the proposed site, is likely to be immense! Why build so close to Haverhill and Withersfield when the Thurlow Estate have thousands of acres and numerous other sites to locate this industrial plant that would be much further away from where so many people live!"
Caroline Barnes	Haverhill	Cb97yg	17/02/2023	"Haverhill doesn't need or want this."
Sarah Montague-Rockall	Haverhill	CB9 9LJ	17/02/2023	"The impact on the town would be huge. We need much better public consultation on these matters!"
Ryan Greenwood	Cambridge	Cb9	17/02/2023	"It will de value my house and is far to close to the town +will make the 1307 even more dangerous"
Margaret Marks	Haverhill	CB9 7RN	17/02/2023	"Margaret Marks"
Caroline Burnett	Bury	PE28	17/02/2023	"I admire the green issues, but proposed site is wrong on many counts."
Lee Hanning	Cambridge	CB5	17/02/2023	"I've moved to Haverhill to enjoy the fresh air and support the growth of Haverhill as a thriving enjoyable place to live.... This is really not suitable or In keeping to a growing town trying to entice family's to enjoy the area and it's countryside. This development would be a massive kick in the teeth for all those who have made Haverhill there home with no prior knowledge or expectation of what has been proposed here... would also have a massive effect on the local economy at a time when growth is so vital and living costs are what they are. No No No"
Daniel Walker	Haverhill	CB90PL	17/02/2023	"A plant like this needs to be built far away from towns. There could be health issues with people having to consume their foul smelling air."
Louise Whiting	Haverhill	CB90da	17/02/2023	"This is inappropriate location and will have adverse effects on community and environment"

Petition organised by Muck Off Acorn Campaign:  
**"Oppose Acorn Bioenergy building an anaerobic digestion plant in Withersfield, Haverhill"**

D Montgomery	Derry	BT47 5SX	17/02/2023	"Wrong location. Stay away from Nature!"
Terry Rich	Haverhill	CN97SG	17/02/2023	"This is the wrong place for this huge industrial scale plsnt"
Chloe Delimal	Pampsford	CB22 3EF	17/02/2023	"I am concerned about the impact on the housing locally"
Rebecca Irvine	Haverhill	CB9	17/02/2023	"I've been past a similar plant off of the A505 (in the middle of fields). You can smell it way before you see it and it stinks. This proposed site is far too close to the town of Haverhill and surrounding villages."
Sean Barker	Haverhill	CB9	17/02/2023	"This is a local town for local people. We'll have no trouble here!"
Kayley Chalk	Haverhill	cb9 8en	18/02/2023	"Of the risks involved"
Paul Palmer	Haverhill	CB9	18/02/2023	"This is a ridiculous place to have this site, given the amount of Land Vesty own. Its selfish to put this right on the side of a town and villages."
Catherrine De Vere Burt	Northampton	NN4	18/02/2023	"This plant although good for the users bad for the population it should be on land that can't be used for much else and avoiding negative impact on the local environment and the local population."
Patrick Hanlon	Haverhill	CB9 0BZ	18/02/2023	"Wrong place. Too close to the second largest town in West Suffolk, too close to a river water course and too much traffic going in and out onto a main A road. Muck Off."
Beatrice Chatwin	Northampton	NN1	18/02/2023	"I do not know this part of the country, but over the years I have heard similar stories and they always turn out the same. They make people's lives miserable and organisations very rich. These people live in beautiful areas and wouldn't have such things near them."
Margaret Park	Coatbridge	ML5 4UJ	18/02/2023	"No more bioengineering...away yezz go back to ashkenazi"
Darren Hastings	Haverhill	CB9	19/02/2023	"Wrong location as it floods there and also the smells will be horrible also more traffic on the 1307"
Martin Stephens	Haverhill	CB9 7FL	20/02/2023	"I live very close to the proposed development and I don't want my life blighted by noise, smell and increased traffic"
Karen Chilcott	Haverhill	CB97WS	21/02/2023	"Do not want this site built here! The smell will be awful, which could hinder property sales as well. It is far too close to where people are living!"
paulette coulter	Haverhill	CB9	21/02/2023	"im signing because its a good idea for the country"
Pauline Allen	HAVERHILL	CB9 0JN	22/02/2023	"The site is too close to existing residential areas (only a few hundred metres from a densely populated housing estate), would significantly impact travel & traffic on an already problematic road network, and could negatively affect the local environment. The gas will be transported to Milton Keynes and feeds into the grid network - it does not stay or benefit anything locally. Build it closer to Milton Keynes, if that is where it is going. You would use less fuel getting it there!"
Suz Carter	Haverhill	CB9 9EN	22/02/2023	"It's far too close to housing and will impact the peaceful surroundings. Nobody wants that at the entrance to Haverhill, it would be a really shitty welcome to the town."
Carol Hewitson	Haverhill	CB9 9DJ	22/02/2023	"We moved here from London for my retirement to get away from pollution and smells twenty years ago for my health and breathing problems, I live near Sainsburys so would be very near to the plant and my health would suffer greatly, their have been too many houses built in Haverhill already so we do not need this plant being built here right on top of them affecting peoples health and way of life, they should built it in a more rural place where it won't affect people"
Wendy Reed	Clare	CO10 8QD	22/02/2023	"I wouldn't want this on my doorstep either. It's an industrial development and shouldn't be near residential housing."
Joan Horner	Haverhill	CB98EN	22/02/2023	"This huge plant would have a detrimental impact visually and traffic wise on the local community. Plus, From experience of similar plants the smell would have a completely unacceptable impact on the the health and well being of the entire town and surrounding villages.No such plant should ever be considered to be built so close to a built up/ urban area."
Petra Norris	Haverhill	CB9 9HF	22/02/2023	"Because it's dangerous, it's too close to houses and in a very poor position right in the gateway of our Town. It's enormous and we don't want it polluting our environment. If St Edmundsbury are so keen to give it the go ahead let the have it in Bury St Edmunds or preferably in the middle of nowhere"
Fiona Fletcher-Brown	Haverhill	CB9 0JS	22/02/2023	"I don't want extra traffic on an already over capacity road"
Peter Heal	Clare	CO10 8NY	22/02/2023	"The size and also the damage to the to the surrounding area"
Tracey Murphy	Newmarket	CB8	23/02/2023	"I believe it's an entirely inappropriate place for this site - close to residential property - when there are much better places to site the project"
Mandy Dye	Cold Norton	CM3	23/02/2023	"It's far too close to residential area, it will cause extra traffic in and out of Haverhill. It needs to be built nearer to Milton Keynes away from housing, young families and nurseries"

Petition organised by Muck Off Acorn Campaign:  
**"Oppose Acorn Bioenergy building an anaerobic digestion plant in Withersfield, Haverhill"**

Clare Reeve	Haverhill	CB99HL	24/02/2023	"I live in Haverhill and think this whole thing is outrageous! We do not want this here!!!"
John Sims	Haverhill	CB9 9DR	24/02/2023	"Wrong place for this plant."
Michelle Magwood	Haverhill	CB9	24/02/2023	"Too.close too noisy too smelly ,take it elsewhere"
Dawn Lloyd Jones	Wrexham	LL13 7UF	24/02/2023	"I wouldn't want to live near such a plant and don't think anyone else should have to."
sarah Sullivan	Haverhill	cb99hf	27/02/2023	"We need to clean our act up! Not make it worse! Our children will be living in squalor if we carry on like this!"
james court	Haverhill	cb99bp	27/02/2023	"An all round bad idea"
pat dowsett	Welling	DA16	27/02/2023	"Let the Spanish Company build this in Spain ... Who will they employ to build this poisonous heap? Certainly not British people, but most probably imported workers from Spain. We are aiming to have clean air in UK... Haverhill has the cleanest air, why do they, the Spanish buyers want to destroy the clean air in Haverhill.... No... to this totally insane proposal to build this extremely dangerous monstrosity at Haverhill... Extremely volatile, unstable method of making methane... the additional pollution of transporting and building for years, and who knows how many road traffic accidents/deaths by this build..."
Kirsty Lipscombe	Haverhill	Cb9 0af	01/03/2023	"Haverhill is bad enough we don't need it turnt into a literal s**t hole!"
Naomi Bailey	Haverhill	CB9 9QL	02/03/2023	"Bad idea, not needed so close to the town, cannot believe it's even being discussed for this location - someone will be getting a back hander to push this through"
Naomi Bailey	Haverhill	CB9 9QL	02/03/2023	"Bad idea, not needed so close to the town, cannot believe it's even being discussed for this location - someone will be getting a back hander to push this through"
Alison Barnes			02/03/2023	"I like living in Haverhill and don't want this on my doorstep. As well as it being an eyesore, the extra traffic, not to mention the smell, is going to be horrendous. They might say there won't be any smell or any extra traffic but we all know there will. If it's not that bad, why don't they build it on their own doorstep? I'm sure there are plenty of other spaces to build which are nowhere near built up areas"
Anna Wroblewska-Wolna	Haverhill	CB9 7YE	04/03/2023	"I don't want to breath in sewage!"
Susan Walker	Haverhill	CB9	10/03/2023	"I wouldn't want to live near a plant like this.. it should be located remotely from towns or villages!"
Fiona Gillingham	Haverhill	Cb9 7fl	11/03/2023	"It brings nothing positive at all to the town other than more traffic, bad smells."
Helen Paulyn	Haverhill	cb99ne	12/03/2023	"It's absolutely disgusting they would even consider building this plant anywhere near human habitation!"
Andrew Haldane	Withersfield	CB9 7SN	13/03/2023	"This huge smelly eyesore is too close to housing. It will replace the current "green corridor" approach to Haverhill with acres of unsightly industrial scale development creating an appalling first impression of the town"
Barbara Brown	Leyton	E10	14/03/2023	"It's outrageous this was even considered near homes Surely this will not go ahead"
Kristine Bantick	Great Bradley	CB8 9NR	15/03/2023	"We do not need this!"
Deborah Hartwell	Buckhurst Hill	IG95JT	18/03/2023	"Don't think it's appropriate to be built here...they should build it far away from residential areas! Don't give people additional stress! Have some thought ☺ for others..."
Sarah Iron			21/03/2023	"I regularly drive past another of there plants on my way to stevenage and the smell is appalling everytime night or day. Though I agree the concept is good no way should this be so close to a town or anywhere habited it should be in the middle if nowhere away from homes."
Kirsty Kleczkowski			21/03/2023	"I'm concerned about the impact to local residents"
Colin Perry	Haverhill	CB9	23/03/2023	"I agree with the concept, But this is totally the wrong location and will be a source of smell particularly in the summer,"
Patrick Hanlon	Haverhill	CB9 0BZ	23/03/2023	"This is on the West side of Haverhill, the prevailing wind is westerly, this will effect thousands of people in Haverhill, Withersfield and the surrounding villages."
Christine Last	Haverhill	CB9	27/03/2023	"What an attractive sight as you enter our town and coupled with the smell, very welcoming"
hillary smith	Rochdale	OL16 3HN	27/03/2023	"I have lived near a waste site and the smell was horrendous. People should not be impacted by these plants and the problems they bring"
Krystian Szlompekk	Colchester	CO2	27/03/2023	"Proposed location is way too close to housing and may severely affect the air in the living area"
maria mcgrouther	Gosfield	co9 1sq	27/03/2023	"Thundering great lorries & the plant stinking the area out to high heavens, Funded by Spanish venture capitalists, NO THANKS"

Petition organised by Muck Off Acorn Campaign:  
 "Oppose Acorn Bioenergy building an anaerobic digestion plant in Withersfield, Haverhill"

Alison Gilbert	Haverhill	CB9	28/03/2023	"This development is too close to housing and in an area where future housing is likely to be developed. The Road sisters are already overused and are Haverhill being used as a dumping area for an anti-social scheme that will pollute the area and put further strain on the already crumbling road network."
Bibin Koshy	Bangalore		28/03/2023	"There is no benefit to Haverhill community at all"
John Warburton	Little Wratting	Cb9 7ud	28/03/2023	"I can't see any benefit for our community in this development."
Darryl Rote	Haverhill	Cb9 0dq	28/03/2023	"It's going to smell awful and puts more large lorries in our town and villages."
Jane Rogers	Haverhill	CB9 7RD	28/03/2023	"We don't need another smell. Sewage plant, IFF, and chemicals are smelly enough"
june keeble	Linton	CB21 4YL	28/03/2023	"This site is too near homes and villages"
Graham Killingback	Saint Ives	PE28	28/03/2023	"I don't want this on my doorstep. We have enough smells from the chemical plants we already have in the town"
William Halliday	Haverhill	CB98NS	28/03/2023	"This type of installation is not suitable to be built on the outskirts of Haverhill or any other town. It should be located where it will not cause environmental issues to any population and where there are major road links."
Barbara Cooper	Downham Market	PE38	28/03/2023	"I oppose this proposed development, which will be hazardous to adjacent populations."
Stephen Toase	Kedington	CB9 7PS	28/03/2023	"This sort of venture should be operated away from any residential development in an area that does not impact any individual from the enjoyment of the home they live in. Devaluation of properties is inevitable and is completely unacceptable with the impact like the smells this will create to the surrounding areas. This can go ahead in an inhabited area, plenty around just might cost the company more money to implement. Better than costing many citizens of the area in the long run by the impact this will cause. If this goes ahead it will be a disgrace."
Jennifer Goodall	Haverhill	Cb99jn	28/03/2023	"I live nearby and don't want the noise and smell when it could be further into the country side"
Heidi Mackenzie	Haverhill	CB9	28/03/2023	"I am a resident of Haverhill. And very concerned about the increasing traffic. As well as the smell from the poultry & silage waste. Haverhill has suffered from bad orders before, coming from the sewage plant & IFF."
Wendy Hanlon	Haverhill	Cb9 9as	29/03/2023	"We do not need the extra pollution this is going to create in our town"
Jo Rowson	Tenterden	TN30	29/03/2023	"Negative impact on local area, health, nature, roads.."
Avril Burt	Winchester	SO213EU	29/03/2023	"Do not sell off our land to Spain or any other country"
Marc Greenacre	Haverhill	CB9	29/03/2023	"Don't want this anywhere our doorstep thank you. Muck off !! ♦"
Jill Turner	Kedington	CB97NA	29/03/2023	"We don't want that near housing"
Tom Browne	Colchester	CO27ut	29/03/2023	"Roads, environment, health and quality of living will be hugely impacted. Unbelievable if it's even considered."
Elizabeth Malyon	Cambridge	CB21	29/03/2023	"Haverhill yet again is being used as a dumping ground for the rest of Cambs & Suffolk"
Heather Lonsdale	Haverhill	cb9 7bw	29/03/2023	"This is a totally inappropriate location, the A1307 is already unable to cope with the traffic using it. It will do nothing to benefit the area and the output is to be used many miles away so doesn't fulfill carbon footprint requirements either"
Brian Leverett	Haverhill	CB9 9ER	30/03/2023	"Imagine the lovely aroma as visitors/ residents drive into Haverhill from the direction of Cambridge. What a wonderful greeting that would be. I know 1st hand the stench from this plant would be like as I've driven past the Bio plant on the A505 near Baldock. Absolutely disgusting. Forget sitting outside the flying shuttle on a nice hot summers day enjoying the fresh air, & a nice cold drink, forget the nice fresh air as you walk around the reservoir. All you will smell is chicken s**t and fart!"
Galina Georgieva	Haverhill	Cb97gh	31/03/2023	"The site is too close to the residential area, would significantly affect air quality in the area and impact traffic on an already problematic road network, and could negatively affect the local environment, possible pollution risks, vile smells and"
Kate Bowers	Banbury	OX16	31/03/2023	"It's too close to housing and is not fair"
gillian wright	Wisbech	PE13	31/03/2023	"we really don't want what's left of our countryside to be spoilt"
Alison Croucher	Castle Camps	CB94TJ	31/03/2023	"I am concerned about the impact it will have on the environment and surrounding area"
Alison Croucher	Castle Camps	CB94TJ	31/03/2023	"I signed because of the damage to the environment The impact of heavy lorries on an already overused road network"
Pauline Goldberg	Colchester	CO94RJ	31/03/2023	"This is horrendous for local people and would be a huge blot on the area"
Julie FARNHAM	Haverhill	Cb9 0lj	31/03/2023	"It's wrong in so many ways"
Steve Coppin	Cambridge	CB2	01/04/2023	"I don't want my life ruined by the stench"
David Howell	Haverhill	CB9	01/04/2023	"This project would be too near to town and villages."

Petition organised by Muck Off Acorn Campaign:  
 "Oppose Acorn Bioenergy building an anaerobic digestion plant in Withersfield, Haverhill"

Derek Akers	Haverhill	CB9 0DS	01/04/2023	"This is not the type of industry Haverhill needs. There has been enough foul smells in the past from chemical related industry. The proposed development is too close to new housing. Does the County Council realise what might be involved. I suggest they come to this area of Suffolk and see for themselves."
Michael Osborne	Haverhill	CB9 9QR	01/04/2023	"Please sign this petition against this proposal to concrete over 31 acres of farmland and build a poultry& silage waste plant to produce HIGHLY FLAMMABLE METHANE GAS The gas will be stored onsite not for use in Haverhill but pumped into road tankers for delivery to MILTON KEYNES WHY you may ask. Well by receiving gas by road tankers they will not have to suffer the from Height of 6+ gas storage tanks of the height of 16.5 m METHANE GAS."
Eleanor Carroll	Haverhill	CB9	01/04/2023	"This would cause horrendous smell, noise pollution and heavy traffic. Could have a negative effect on us residence. It's a totally inappropriate place to put it."
Gareth Wax	Chelmsford	CM2	02/04/2023	"It will ruin this area for everyone"
Michael Judge	Linton	CB21 4LZ	03/04/2023	"We do not want this massive waste of space near our villages Acorn. What we do want is you to just muck off!!"
Judith Rossiter	Linton	CB21 4HT	04/04/2023	"The smell from the bio-digester from the plant on the A505 near Baldock can be appalling. If this plant might smell as bad it is far too close to houses."
Janine Dourado	Haverhill	Cb98hl	05/04/2023	"Signing for my nan too as she has no access to a computer"
Agata Szoltysek	Cambridge	CB1 9GH	06/04/2023	"This location is a joke. We don't want this anywhere near Haverhill houses, rivers, and nature."
Liz Millard	Stambourne	CO9 4NX	08/04/2023	"Although I live some miles away from the proposed site I feel that it will have a definite negative impact on the lives of those that live near it and the whole infrastrucutre of the area."
Michael Caseley	Cambridge	CB21 4SN	10/04/2023	"Too close to a residential area and food facilities coupled with increased heavy traffic near main town entry road."
Anthony Whiting	Saint Ives	PE27	12/04/2023	"Totally wrong location, should be on a industrial site, this would never be built as you enter Bury St Edmunds."
Jennifer Oglesby	Haverhill	CB9 7FE	16/04/2023	"This methane and other toxic gasses will settle in the Haverhill valley as it has nowhere to go and residents with respiratory issues will suffer. This plant causes pollution in the river will severely affect wildlife."
Susan Richardson	Haverhill	CB9	27/04/2023	"Haverhill is my home...and is home to many other families and fellow Haverhill residents living in this town...This stinking monstrosity of Acorn's should not be dumped near our homes!.The smell, the traffic, the ugliness of it all does not belong anywhere near our town!...A putrid smelling eyesore blighting the landscape and most likely curtail the outdoor enjoyment of our gardens and other open areas surrounding the proposed site..We do NOT want this dumped near our town and our homes!.end of...!!!!"
gillian wright	Wisbech	PE13	14/05/2023	"How do i sign for my sister-in-law as she has no laptop"
Dawn Perry	Haverhill	Cb9 0js	25/05/2023	"I worry about the effects on the country side n the smell for my granddaughters."
Stephen Pidgeon	Grimsby	DN34	26/05/2023	"It needs to be stopped"
vicki kimber	Braintree	CM74RX	30/05/2023	"There are so many houses in the uk and not enough fields to produce food to supply us all!"
Jo Collins	Cambridgeshire	Cb21	20/06/2023	"We don't need this in haverhill."
mark dorey	Haverhill	cb9 0jy	22/06/2023	"Right Technology! WRONG LOCATION!!!"
Richard Smith	Haverhill	CB9 0DJ	27/06/2023	"Somehow putting it next the the toilet roll roundabout seems almost poetic.. However, this really isn't an appropriate advert for Haverhill when people drive to the town.. and the road there isn't good enough for all the extra traffic anyway.."
Daniel Dulieu	Cambridge	CB9	10/07/2023	"I'm signing this petition because it's not necessary to have Acorn in a location like Haverhill. We don't want highly flammable gases like Methane in Haverhill, or for the area to smell, make noise or to add congestion to the nearby roads. Perhaps Acorn can consider building elsewhere in a location like a city where there are more of these kind of companies, or not at all, but Haverhill doesn't need these operations in the area!"
Bradley Cutts	Haverhill	CB97PW	11/07/2023	"I live in withersfield and don't want any nasty smells or increased traffic. Put this plant elsewhere not where people live."
gillian wright	Wisbech	PE13	02/10/2023	"i feel it's much to close to our town , there are many more fields to use right in the middle of nowhere not right on our doorstep, i understand the smell is sickening , WE DON'T WANT IT HERE"
Zoe Warder	Cambridge	CB4	21/10/2023	"I live in Haverhill"
Rachel gooden	Haverhill	Cb9	21/10/2023	"I really do not want this close to our town, with the smell it will produce."
John Robinson	Waltham Abbey	EN9 3HT	22/10/2023	"This plant needs to be sited away from residential areas and closer to Milton Keynes to minimise public inconvenience and to maximise transportation efficiency."
