Dear Mr Rutter

In my objection to the above application lodged on the 26th of October 2023 (attached again for convenience) i commented on the exaggerated claims for screening of the site made by the applicant. I now attach a photograph taken from the A1307 that illustrates the line of mature trees which the applicant cites to as evidence of screening and illustrates how ineffectual these deciduous trees are for screening during autumn and winter. I hope this additional evidence can be added in support of this aspect of my objection.

Regards

Andrew Haldane
