Dear Mr Rutter,

I wish to register my strongest objection to the Acorn Scheme.

I purchased an important historic house in Withersfield during 2019, since then I have spent a further 150% of the purchase price renovating the property over the ensuing 4 years.

My wife and young son haven't even moved into the property yet and are unlikely to be able to until next year. Having spent every penny I have (and a considerable amount more to boot), I do not relish the thought of living in a house that is constantly blighted with foul odours. Probably even more unpalatable is the prospect of the huge amount of heavy lorries constantly causing congestion on already busy and dangerous roads. The A1307 is already one of the most dangerous roads in the country, the additional heavy lorries will certainly impact heavily on the level of accidents, impatient drivers will take greater risks to avoid being stuck behind slow moving trucks.

There must be more suitable sites for the plant, surely common sense and the good of the common people must prevail. Hopefully the consideration of the proposed site will take this into account. Rather than just looking at the significant local partner.

Please, please, please stop this terrible proposal and avoid destroying our lovely environment.

Many thanks and best regards,

David Austin
