My name is Gail Course. I live at 9 Seymour Drive Haverhill. I am complaining about the plans being put forward for the Acorn plant in Haverhill. I feel that the thought of building this goes completely against the environmental policy. The build up of traffic is going to strain all the roads in this area. The pollution from the plant. Light, and noise plus smells is showing complete disregard for the people of Haverhill. The outputs from the plant isn't even for Haverhill, but somewhere else. So it would make sense to place the silage plant closer to where the products are going to be used. Don't you think. Haverhill used to have so much promise. Covid did a lot of damage to the community. But this plant will be an eyesore to behold. Please stop it. It's not wanted here.

Yours sincerely Gail Course
