I write to object to the planning application for the waste disposal Bio Digester proposed to be built near Hanchet Village and Sainsbury store Haverhill. I object because of the planning issues described below. The proposed digester would increase traffic to and from the site. The access roads are already over stretched and in one case a high accident route.

The proposed building is on agricultural land and the proposed use is an industrial process.

The raw materials and processes present the risk of unpleasant smells and potentially flies and vermin that could be a nuisance to large numbers of people living nearby.

Please consider these points.
