This is a letter of complaint about this plant being planned to be placed on the edge of Haverhill. My name is Tony Course. I live in Seymour Drive Haverhill. I am really disappointed that people are looking to move ahead with this plant. To place this plant right next to the town of Haverhill shows complete disregard for the population of Haverhill. As it is the amount of traffic that we have now is wearing out the roads around our area. Let alone having 140 more traffic movements a day at busy times. Nothing from this plant is to benefit Haverhill. I'm lead to believe the products are going to be used elsewhere. So it would make sense to have this plant closer to where the products are going to be used. Where are your green policy's on this matter. With the Co2, noise, light and smell pollution I feel that we, the people of Haverhill are being treated with contempt.

When my wife and myself moved to Haverhill over 20 years ago. We thought it was a great little town. But with this plant being on the edge of town potentially being a real eyesore as you arrive in Haverhill. It will be another depressing feature.

Yours sincerely Tony Course.
