Thank you for consulting the MOD on the full application, reference SCC/0045/23SE.

The Defence Infrastructure Organisation (DIO) Safeguarding Team represents the Ministry of Defence (MOD) as a consultee in UK planning and energy consenting systems to ensure that development does not compromise or degrade the operation of defence sites such as aerodromes, explosives storage sites, air weapon ranges, and technical sites or training resources such as the Military Low Flying System.

Following review of the application documents, I can confirm the proposed development falls outside of our Statutory Safeguarding Areas and therefore the MOD has no concerns with this proposal.

The MOD must emphasise that this email is provided specifically in response to the application documents and supporting information provided on the Suffolk County Council website as of the date of this email.

Amendments to any element of the proposed development (including the location, dimensions, form, and/or finishing materials of any structure) may significantly alter how the development relates to MOD safeguarding requirements and may result in detrimental impact(s) on the operation or capability of defence sites or assets.

In the event that any:

- revised plans;
- amended plans;
- additional information; or
- further application(s)

are submitted for approval, the MOD, as a statutory consultee, should be consulted and provided with adequate time to carry out assessments and provide a formal response whether the proposed amendments are considered material or not by the determining authority.

Kindest regards

Debbie Baker | Safeguarding Manager
