For the attention of: Aimee Brannan

Dear Aimee

TOWN AND COUNTRY PLANNING ACT 1990 CONSULTATION RETURN: SCC/0012/26SE

PROPOSAL: The installation of a fire suppression system and associated ancillary infrastructure

LOCATION: Haverhill Waste Transfer Station Homefield Road Haverhill CB9 8QP

Notice is hereby given that the County Council as Highway Authority make the following comments:

We are satisfied that this proposal will not negatively impact upon the local highway network. We recommend that the following planning condition is included in any permission to ensure that the construction of the proposal does not temporarily negatively impact upon the highway and local area:

Condition: A Demolition and Construction Management Strategy shall be submitted to and approved in writing by the Local Planning Authority prior to work commencing on site. The strategy shall include access and parking arrangements for contractors vehicles and delivery vehicles (locations and times) and a methodology for avoiding soil from the site tracking onto the highway together with a strategy for remedy of this should it occur. The strategy should also include clear location and layout plans of these facilities. The development shall only take place in accordance with the approved strategy.

Reason: To ensure minimal adverse impact on the public highway during the construction phase.

Yours sincerely,

Ben Chester
Principal Transport Development Planner
Growth, Highways and Infrastructure
